

SUBJECT INDEX

A

- Abbot compound AP-124, sweating and, 268
 Absorption time, effect of ACTH on, 332
 Acetic acid, effect of on rat epidermis, 88
 Acetylcholine "blocking effect of antihistaminics, 31
 Acne, in steroid therapy, 207
 Acne vulgaris, therapy of, 71, 261
 Acneform lesions, and sensitization, 339
 Aerodermatitis chronica atrophicans, penicillin in, 193
 ACTH, atopic dermatitis and, 367
 clinical assay of in skin diseases, 323
 eosinophil changes after use of, 186
 side effects of, 205, 330
 Acrosclerosis, ACTH in, 324
 Adamstone-Taylor technic, modification of, 429
 Adrenocortical functioning, in atopic dermatitis, 355
 "Alarm reaction", in atopic dermatitis, 255
 hematologic changes in, 178
 Allergens, poison ivy, oxidation of, 103
 Analgesics, and pain threshold, 369
 Anticholinergic compounds, in sweating, 267
 Anti-collagenase, 43
 Antihistaminics, and pain threshold, 374
 blocking effect in, 31
 Antuitrin S, in acne vulgaris, 71
 Arsenic, in treatment of eczema, 388
 Aspergilli, and the "L.E." phenomenon, 214
 Asymatrine HBr, sweating and, 268
 Artane, in sweating, 271
 Atopic dermatitis, ACTH in, 324
 ACTH in, 367
 pituitary-adrenocortical functioning in, 355
 sulfapyridine in, 390
 Atropine methyl nitrate, sweating and, 268
 Aureomycin, effect of on vaccinia virus, 1
 Autohemotherapy, adrenocortical stimulation in, 177

B

- Benadryl, 268
 blocking effect in, 33
 Benzocaine, and pain threshold, 372
 Biotin, 111
 Boeck's sarcoid, ACTH in, 330

- Borrelia anserinum, 231
 noviji, 231
 Bullous diseases, electrophoretic studies in, 12

C

- Capillaries, effect of ACTH on, 333
 Casein hydrolysate medium, fungus pigment and, 275
 Castor oil, effect of on rat epidermis, 88
 Cholesterol, effect of on rat epidermis, 88
 Chloroform, effect of on rat epidermis, 88
 Chromatin, in malignant melanomata, 257
 Cl. welchii type A, and collagenase, 43
 Colchicine, use of in verruca vulgaris, 123
 Collagen, electron microscopy of, 290
 Collagenase, inhibition of, 43
 Contact dermatitis, hyaluronidase activity in, 175
 Cortisone, cutaneous side effects of, 205
 Cutaneous microscopy, of nevi, 407
 Cyst formation, and sensitization, 339

D

- Dermatitis, sulfapyridine therapy in, 387
 Dermatitis gestationis, electrophoretic studies in, 127
 Dermatitis herpetiformis, ACTH in, 330
 electrophoretic studies in, 127
 hyaluronidase activity in, 175
 Dermatomyositis, gamma globulin in, 404

E

- Eczema, sulfapyridine in, 387
 nummular, 328, 392
 Electrophoresis of mecholyl, 31
 Electron microscopy, 281
 Electrophoretic studies, in bullous diseases, 125
 Eosinophil changes, after alarm reaction, 186
 count, in atopic dermatitis, 355
 Ephelis, cutaneous microscopy of, 419
 Epidermis, examination of by strip method 383
 experimental separation of, 81
 rat, effect of various substances on, 87
 Epinephrine, in alarm reaction in atopic dermatitis, 356

Epinephrine, eosinophil changes after use of, 186
 used with streptomycin, 75
 Erythema multiforme bullosum, electrophoretic studies in, 127
 Escherichia coli, cyst formation and, 348
 Ether-soluble substance, effect of ACTH on, 333
 on skin, 217
 Ethyl chloride, and pain threshold, 375
 Exfoliative dermatitis, ACTH in, 324

F

Fluorescence, effect of ACTH on, 333
 lack of in *M. gypseum* infection, 119
 Flush, effect of biotin on, 113
 Fungi, and "L.E." phenomenon, 211
 Fungistatics, value of, 160
 Furunculosis, due to ACTH, 330
 Frozen section, technic for, 429
 Fuseaux, and macroconidia, 3

G

Gamma globulin, in skin diseases, 401
 Granuloma inguinale, gamma globulin in, 403
 Grenz ray, compared with x-ray, 65

H

Hair growth, and sensitization, 339
 Healing, wound, effect of ACTH on, 330
 Hemangiomas, cutaneous microscopy of, 421
 Herpes simplex, electron microscopy in, 289
 Herpes zoster, electron microscopy in, 287
 pain, ACTH in, 328
 Histadyl, and pain threshold, 375
 Hodgkins' disease, ACTH in, 324
 Homatropine HBr, sweating and, 268
 Hormone therapy, in acne vulgaris, 71
 Hyaluronidase, clinical assay of, 169
 in scleroderma, 97
 Hydrophilic absorption ointment bases, 7
 Hyperpigmentation, 330
 steroid therapy, 205
 Hypertrichiosis, in steroid therapy, 205

I

Idiopathic hemorrhagic sarcoma, ACTH in, in, 328
 Idiopathic hemorrhagic sarcoma, penicillin in, 193
 Immunologic changes, due to ACTH, 323
 Intraderm sulfur, in acne vulgaris, 261

Iontophoresis, of hyaluronidase, 97
 Inclusion body of verruca vulgaris, 19
 Infectious eczematoid dermatitis, sulfapyridine in, 394
 Intracaine, used with streptomycin, 75

K

Kaposi's sarcoma, ACTH in, 328
 penicillin in, 193

L

L.E. phenomenon, fungal material and, 211
 Lentigo maligna, cutaneous microscopy of, 413
 Leprosy, gamma globulin in, 403
 Lilly compound 874, 268
 Leukemia cutis, ACTH in, 324
 Lichen chronicus simplex, hyaluronidase activity in, 175
 Lichen planus, ACTH in, 329
 Lupus erythematosus, ACTH in, 323, 327
 gamma globulin in, 402
 Lupus vulgaris, gamma globulin in, 403
 Lymphoblastoma, gamma globulin in, 404
 Lymphopathia venereum, gamma globulin on, 403

M

McClure-Aldrich test, effect of ACTH on, 332
 Mecholyl, electrophoresis of, 31
 Melanin, electron microscopy of, 288
 Melanin, in malignant melanomata, 257
 spectrophotometry of, 313
 Melanomata, malignant, 257
 Melanotic whitlow, cutaneous microscopy of, 420
 Menthol, and pain threshold, 372
 Microscope, low power pocket, 201
 Microsporium audouini, macroconidia and, 5
 therapy in, 162
 canis, macroconidia and, 4
 Macroconidia, nature of, 3
 Microsporium canis, therapy in, 163
 Microsporium fulvum, fluorescence in, 119
 pigment, 275
 gypseum, fluorescence in, 119
 Microscopy, cutaneous, of ephelis, 419
 of hemangiomas, 421
 of lentigo maligna, 413
 of nevi, 407
 of malignancy, 422
 of melanotic whitlow, 420

Microscope, electron, 281
Miliaria, experimental, 53
Mineral oil, effect of on rat epidermis, 88
Mitotic activity, after stripping, 383
Molluscum contagiosum, electron microscopy in, 289
Moon face, 330
 in steroid therapy, 205
Multiform erythema, due to ACTH, 332
Mycosis fungoides, ACTH in, 324

N

Nevi, cutaneous microscopy and, 407
Nicotinic acid, and biotin, 115
Nucleotids, histochemical study, 19
Nummular eczema, ACTH in, 328
 sulfapyridine in, 392
Nupercaine, and pain threshold, 372

O

Ointment base, hydrophilic, 7
Oleic acid, effect of on rat epidermis, 88
Olive oil, effect of on rat epidermis, 88

P

Pain threshold, analgesics and, 369
Panthenol, in ulceration, 379
Para-group, cross sensitization in, 299
Parapsoriasis, therapy with vitamin D₂, 121
Patch test, effect of ACTH on, 334
 effect of sulfapyridine on, 395
Pavatrine, sweating and, 268
Pemphigus, ACTH in, 327
 electrophoretic studies in, 127
Penicillin, in acrodermatitis chronica atrophicans, 193
 in Kaposi's sarcoma, 198
 procaine, in yaws, 77
Peroxidase, inactivation of allergen by, 103
Phenol, and pain threshold, 372
Pigment, of *M. fulvum*, 275
Pilocarpine, in sweating, 269
Pituitary-adrenocortical function, in atopic dermatitis, 355
Poison ivy allergen, inactivation of, 103
Pontocaine, and pain threshold, 372
P-phenylenediamine, sensitization with, effect of x-ray on, 92
Pregnenolone, cutaneous side effects of, 205
Procaine penicillin, in yaws, 77
 cross-sensitization to, 308
Psoriasis, ACTH, 323
Ptychosis, due to ACTH, 330

Pyribenzamine, sweating and, 268
 blocking effect of, 34

R

Rabbit syphilis, universal serologic reaction in, 131
Reticulum cell sarcoma, ACTH in, 328

S

Sarcoidosis, ACTH in 330
 gamma globulin in, 403
Scleroderma, ACTH in, 324
 hyaluronidase in, 97
Scopolamine HBr, sweating and, 268
Sebaceous adenoma, hyaluronidase activity in, 175
Seborrheic dermatitis, in steroid therapy, 205
Sensitization, acneform lesions and, 339
 hair growth and, 339
 staphylococcal, 329
 cross-, 299
 cutaneous experimental, effect of x-ray on, 91
Serologic reaction, in rabbit syphilis, 131
Serum, human, and collagenase, 48
Staphylococcal sensitization, in rabbits, 339
Staphylococcus toxin, cyst formation and, 348
Skin, normal, effect of ACTH in, 323
Spectrophotometry, of skin, 311
Spectroscopic studies, of oxidized poison ivy allergen, 104
Spirochetes, life cycle of, 231
 electron microscopy in, 286
Stearic acid, effect of on rat epidermis, 88
Streptomycin, in cutaneous tuberculosis, 75
Strip method of removing horny layer, 383
Sulfonamide, cross-sensitization to, 308
Sulfur, intraderm, in acne vulgaris, 261
Sweat, and ether-soluble substances, 226
 duct, destruction of, 53
 retention vesicle, 53
 delivery, effect of ACTH on, 33
Sweating, anticholinergic compounds in, 267
Syntropan, sweating and, 268
Syphilis, rabbit, serologic reaction in, 131

T

Temperature, skin, effect of ACTH on, 332
Terramycin, effect of on vaccinia virus, 1
Thephorin, and pain threshold, 375
Therapy of eczema, 387

Tinea capitis, local treatment of, 155
Trasentine, sweating and, 268
Treponema pallidum, life cycle of, 234
Trichophyton, macroconidia, and, 6
Tuberculosis, cutaneous, streptomycin with
 intracaine and epinephrine in, 75
Tuberculin reaction, effect of ACTH on, 334
Turpentine, and cyst formation, 348
Tyrothrycin, in acne vulgaris, 261

U

Ulcers, panthenol in, 379
Ultraviolet range, spectrophotometry in,
 311
Universal serologic reaction, in rabbit
 syphilis, 131
Urticarial reactions, effect of ACTH on, 334

V

Vaccinia, electron microscopy in, 285
 virus, effect of Aureomycin and Terramy-
 cin on, 1

Vaccine therapy, in acne vulgaris, 71
Varicella, electron microscopy in, 287
Variola, electron microscopy in, 285
Verruca vulgaris, inclusion body of, 19
 cytology of, 20
 use of colchicine in, 123
Virus, electron microscopy of, 282
 of verruca vulgaris, 19

W

Warts, use of colchicine in, 123
Wool, fat, effect of on rat epidermis, 88
Wound healing, effect of ACTH on, 330

X

X-ray, compared with Grenz ray, 65
 effect of on experimental sensitization, 91
Xylene, effect of on rat epidermis, 88

Y

Yaws, procaine penicillin in, 77
